**DECISION  
ON PETITION**

This is a decision on the Request for Reconsideration of Holding of Abandonment Pursuant to MPEP 711.03 filed December 20, 2004.

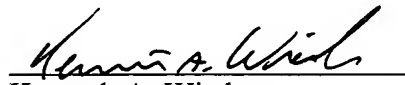

The petition is **GRANTED**.

A review of the application reveals that a Notice of Non-Compliant was mailed March 12, 2004 because applicant did use the proper status identifiers for the amended claims.

Petitioner urges that the Notice did not include the cover page outlining the procedure for correction and time period for response. Petitioner further urges that the received document was taken to be informational only. A review of petitioners Exhibit B indicates no page or sheet showing what corrective action the Office required. Nor is there indicated a period for response. Absent this cover sheet (see Exhibit C), it is reasonable to conclude that the Notice of Non-Compliant communication was informational only and did not require a response from applicant.

The Notice of Abandonment is vacated and the holding of abandonment withdrawn.

The application file is being forwarded to the Technology Center's technical support staff for entry of the corrected amended (attached to the petition as Exhibit D). From there, the file will be forwarded to the examiner for appropriate action in due course.
